Hey - PCO is asking me whether we would be open (we the royal we) in checking in with the mayor and SOLGEN about their states of emergency

In the context of what we are doing

Not sure if anyone else had better insights as I have none!

John B checked in with them and looks like they will let it sunset and not extend. But I have no problem someone checking in again. Although Marco and her spoke yesterday so not sure the value.

What about Ottawa

No problem for me to ask Ottawa what their plan is without telling them
